PROFESSIONAL SUMMARY

Exceptionally creative and dependable IT Analyst with a stellar customer service record and Business Analysis (BA) skills in both waterfall and agile environments. A respectful individual that promotes the engagement, uniqueness and diversity of opinion of individuals with professionalism and integrity. Highly adept at conveying complex technical information to a variety of professional and lay audiences in a clear and understandable manner, while committed to life-long learning in everything I do. Consistently demonstrates a commitment to the continuous development of Nova Scotia's economy and quality of life through education and innovation. Experienced in and receptive to an ever-changing environment, while proactively and objectively tackling problems using critical thinking skills.

WORK EXPERIENCE

- 2016 - 2018

Operations Manager (Robbies Cooking Gas Refilling Plant)

Ethically collected and analyzed customer data, and used this to identify areas of opportunity and inefficiency within the company. Established methods of bridging the gap between Product Focus and Customer Delivery.
- 2015 - 2016

Senior HR Information Systems Analyst (Vistaprint/Cimpress)

- Administered technical and reporting support for Appraisals through SuccessFactors, providing metrics on center-wide performance and trends.
 - Systems Analyst for iCIMS, and leveraged this to process the Hiring of all Employees, External Contractors, Student Interns and Expatriates.
 - Systems Analyst for SAP-HR the tool used as the main hub application storing all employee data collected, from hire to termination.
 - Collaborated with the Global Acquisition team, to ensure that all new acquisitions were seamlessly integrated into the Global Hierarchy, from an Organizational Unit hierarchy perspective, and a Supervisor hierarchy perspective.
- 2013 - 2015

HR Information Systems Analyst (Vistaprint/Cimpress)

- Monitored and processed all New Hires globally for the company, collecting data from the Recruiters and Human Resource managers, then ensuring correct entry of data into SAP. This allowed for a smooth transitioning into the company for, Active Directory creation, employee badging, IT account initializing, and the requisite systems access, all based on the nature of the New Hire's responsibilities.
 - Liaised with Payroll globally for the accuracy of Pay information housed within SAP, used as the basis for which Annual and Semi-Annual merit increases were determined. Ensured that auditing data was submitted to HRIS on a pre-determined schedule, throughout all Vistaprint locations.
 - Implemented Mass Change Forms and used this to liaise with Human Resource Managers across all locations, ensuring that all Position Title changes, Level Changes, Promotions, Supervisor and Department changes were all submitted to HRIS through JIRA Tickets then audited and updated in SAP in a timely manner.
